How Ethics Helps You Succeed

To enjoy a successful business relationship with the Los Angeles Unified School District (LAUSD), you need to ensure that anyone who conducts business with our district on your behalf is well aware of our policies and expectations for ethical business conduct.

You and your representatives should note that as with other leading public and private organizations around the country, LAUSD values the highest standards of business ethics and integrity in our relationships with our contractors and consultants. For an agency like ours, ethical conduct is more than just good business practice. Ethics is a cornerstone for maintaining the public confidence and trust we need to fulfill our mission of enabling student achievement.

Given that the business practices and actions of contractors and consultants can impact and reflect upon LAUSD, we seek business partners who demonstrate a consistent commitment to delivering excellence and to making every dollar count for the students we serve.

Leveraging Our Guiding Principles

Strengthen your relationship with LAUSD by demonstrating your understanding of the three guiding principles behind our Contractor Code of Conduct (updated November 2006):

- Ethical and responsible use of scarce public tax dollars is critical to effective government
- Contracting integrity and quality of service are the shared responsibilities of LAUSD and our contractors
- Proactive and transparent management of potential ethics concerns improves public confidence

By observing these principles and the standards set by our Code, you ensure our mutual success.

Lobbying Disclosure Program — Registration Triggers

If you or other individuals in your organization perform any of the following, you may need to register under LAUSD's Lobbying Disclosure Program:

- Attend or arrange meetings with LAUSD officials;
- Draft recommendations for LAUSD consideration;
- Give gifts, meals, event tickets or other benefits to LAUSD officials;
- Introduce or market products or services to LAUSD;
- Provide advice or recommend

- strategy to a client on LAUSD;
- Seek support or opposition from a third party (including the public) on LAUSD matters;
- Send letters or write e-mails to LAUSD officials in order to influence their decision-making; or
- Take any other action to influence purchasing, contracting, policy or other decisions under consideration by LAUSD officials (*outside of the service requirements of a contract or outside of a specific LAUSD-issued bid process*)

Registration is required if you or your organization conduct these activities and are either:

A Planning to spend over \$10,000 this calendar year to perform these activities on your own behalf

OR

B Paid by a client in *any* amount to conduct the above activities on a client's behalf

In either of these cases, go to: <http://ethics.lausd.net/elfs> to access our training and to register.
